

MULTIMEDIA SPECIALIST

(Range 114)

DEFINITION

Performs technical and creative work to support the inspiration, planning and implementation of multimedia services and programs in the operation of innovation and connected learning environments at a branch library.

SUPERVISION RECEIVED AND EXERCISED

Receives direct supervision from the Multimedia Supervisor or assigned Department Head.

RESPONSIBILITIES:

Essential and marginal functions and responsibilities may include, but are not limited to the following:

1. **Multimedia Operations Support:** Supports the efficient operation of multimedia services to include innovation and connected learning environments within a branch library. Inspires customers to create, explore, collaborate, and plan for the future through a variety of hands-on projects, and self-directed, project-based learning. Schedules customers in the use of electronic and multimedia equipment and software programs. Instructs customers with specialized use of equipment and software programs. Collects and compiles a variety of data including innovation growth. Supports volunteer mentors and ensures an effective relationship between mentors and customer. Maintains a welcoming, safe, and efficient learning environment.
2. **Technical Support and Training:** Assists with the maintenance of materials, electronic equipment, and various technology related to multimedia services, innovation, and connected learning. Performs technical functions in the operation of equipment, including setup, troubleshooting, updating, and maintaining hardware, software, and other related equipment including but not limited to audio/video production, podcast production, green screen technology, virtual reality equipment, robotics, cameras, and lighting. Assists with inventory control and routine maintenance checks including identifying malfunctions and repair needs. Conducts a variety of training sessions for customers and staff related to multimedia services, including basic in-house safety. Provides recommendations for applicable equipment to strengthen and maintain state-of-the-art industry standard gear. Utilizes a variety of electronic devices, sound recording equipment, and software programs including but not limited to graphic design, music production, video editing and production, sound isolation enclosures, disc jockey software and hardware, and chroma panels.
3. **Program and Promotional Support:** Supports and promotes services, programs, activities, and events for innovation and connected learning spaces. Assists with the development, implementation, and promotion of services, programs, and activities, including the calendar of events. Provides tours of the innovation and connected learning spaces for teachers, students, schools, interested groups, and guests.
4. **Customer Service and Communication:** Provides exceptional internal and external customer service to create positive relationships and experiences. Interacts

extensively in person, over the telephone, and electronically in the general correspondence with customers, staff, other library systems, outside agencies, partners, collaborators, and vendors. Provides information about Library District activities, facilities, and services. Responds to public and staff inquiries in a courteous and timely manner. Effectively maintains positive internal communication between Library District branch staff, departments, and Administration.

5. **Community Impact:** Provides community outreach to a diverse group of youth/teens, parents, teachers, and community members; conducts visits to schools, community centers, and other organizations to promote innovation and connected learning. Confers with library users and community groups to assist in inspiring, creating, planning, organizing, and implementing services and programs to improve literacies to include workforce development, financial literacy, self-directed and project-based learning, collaboration, and critical thinking; and to encourage greater patronage of the Library District.
6. **Professional Development:** Stays abreast of new trends and innovations in the field of connected learning, youth/teen and adult technical services and programs; attends training activities related to the latest innovations and practices in the field. Attends meetings and conducts training sessions onsite and offsite, and participates in sharing ideas and issues in support of collaborative projects across networks. Assists with special projects and participates in committee work, as needed.
7. **Other Responsibilities:** Provides reference and other services to library customers by searching files, the collection, and automated library systems to located requested information or materials. Maintains compliance with Library District and branch-specific policies and procedures and effectively explains these to customers and staff. Operates library and general office equipment including copy machine, scanning services, print stations, telephone, and fax machine. Promotes and supports the overall mission of the Library District by demonstrating courteous and cooperative behavior when interacting with public and staff.

Marginal Functions:

1. Assists in other departments as assigned.
2. Performs related duties and responsibilities as required.

KNOWLEDGE, SKILLS, AND ABILITIES

Knowledge of:

1. Informal learning environments and connected learning principles, applications, and culture including innovative service models, social media, collaboration, HOMAGO, STEAM, self-directed, project-based, and interest-driven learning.
2. Various hardware and software programs and associated technologies commonly found in innovation and connected learning environments including but not limited to audio/video production, podcast production, green screen technology, virtual reality equipment, robotics, cameras, lighting, etc.
3. Emerging technology, trends, principles, best practices, and non-traditional techniques of modern public library services.
